

1 3/8" Casing Collar Locator

Product Reference: 050-CC1375-0000

The Casing Collar Locator (CCL) is used to correlate casing or tubing collars for depth accuracy purposes.

The Probe CCL is a dual magnet, center-coil device with a powered amplified signal. This feature provides maximum sensitivity to identify collars in larger casing sizes.

Available in up to a 7-inch diameter casing and is readily combinable with all other Probe tools.

SPECIFICATIONS - 1 3/8" CASING COLLAR LOCATOR

Diameter	1 3/8"	3.5 cm	Mechanical:	
Length	19"	0.48 m	Top Connection	GO Single Pin Box
Weight	9 lbs	4.1 kg	Bottom Connection	GO Single Pin Male
Operating Voltage	100 VDC			
Operating Current	12 mA. DC			

Limitations:

Maximum Pressure	20,000 psi	137.9 MPa
Maximum Temperature	350 °F	177 °C
