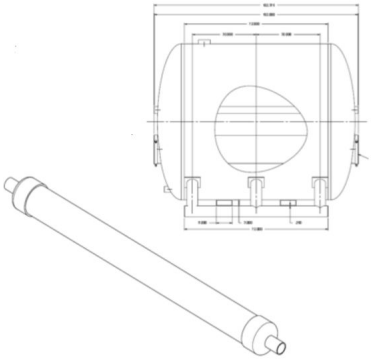
RAS CALIBRATION TANK & CALIBRATION TANK INSERT - HD



SKU: CTI001
Categories: Cased Hole Wireline, Formation Evaluation, HD Platform™, Pulsed Neutron, RAS

PRODUCT DESCRIPTION

The RAS Calibration / Verification Tank & Insert (CTI001) allows for periodic verification of correct tool operation and allows the tool to be tested at surface in a safe fashion.

The tank is fabricated from steel and filled with water. The water provides excellent shielding and a known point for the tool verification.

The Calibration Tank Insert provides a “hydrocarbon” point during testing and verification.

Version Control: 2021.11.29
