

## TOOL INTERFACE BOX

The TIB001 is a USB device that replaces the Surface Modem and TCU or Memory Tool for tool testing purposes.

**SKU:** TIB001

**Category:** [Production Logging](#)

## PRODUCT DESCRIPTION

The TIB001 is a USB device that replaces the Surface Modem and TCU or Memory Tool for tool testing purposes.

When used with Warrior Version 8 it allows single Production Logging Tool sensors, or complete Production Logging Strings to be checked.
