PROBE APPOINTS NEW PRODUCT LINE MANAGERS FOR GROWING SALES AND BUSINESS DEVELOPMENT

FORT WORTH, Texas, June 19, 2023 – Probe, a leading provider of logging and reservoir monitoring technology for the worldwide oil, gas, and geothermal sectors, announces this month the selection of two new leadership additions.

Chris Morgan - Product Line Manager

Chris Morgan has joined Probe as a Product Line Manager. Situated in Fort Worth, his primary responsibility will be the commercialization of products developed through contract manufacturing agreements. “I am excited to join Probe at such a pivotal moment in its long history,” he stated.

Previously, he held the position of General Manager of Sales and Operations at Impact Selector for five years. Prior to that, he accumulated two decades of experience at Baker Hughes, working in diverse capacities across operations, sales, and product line management.

Chris Morgan

Ryan Ballinger - Product Line Manager - Perforating

Ryan Ballinger has joined Probe as the Product Line Manager for Perforating. Operating from Fort Worth, he will assume the responsibility of expanding Probe’s latest product line, specializing in well perforating products. “I hope to help Probe move further into the perforating sector,” Ballinger commented. “I came to here because the company is focused on technology and innovation.”

Ballinger brings prior experience from GEODynamics, where he served as a Technical Solutions Supervisor. Additionally, Ballinger has held managerial and engineering positions at several cased-hole wireline companies, including Weatherford.

Ryan Ballinger
